Weather Key Points

Regional Operations Center

Western Region

Saturday, July 9

- Hot temperatures will spread from southern California Saturday to much of the state through midweek, before gradually cooling across much of northern California by late week
 - Daytime high temperatures will range from 100 to 107°F across much of the Central Valley, and 105-115°F range (locally hotter) across the southern deserts
 - Some areas closer to the coast will also likely experience readings in the 90s Sunday and Monday
 - Moderate to locally high heat risk impacts are likely through mid to late week
- Fire weather conditions will remain locally elevated for many mountain and foothill locations each afternoon the weekend and into much of next week due to breezy winds, heat, and ongoing dry conditions
 - Widespread critical fire weather conditions are not expected over the next 7 days
- Dry weather is forecast statewide through the weekend and into the middle of next week, with some increase in monsoon showers and thunderstorms possible across the Sierra and portions of southern California by late week

Precipitation Forecast

Regional Operations Center
